PROFESSIONAL SUMMARY

Software Engineering undergraduate at Asia Pacific University (APU) with practical internship experience as a Frontend Developer & Sales Support Intern at Wish Group Resources. Passionate about Frontend Development, UI/UX Design, and Mobile App Development (Flutter), backed by a solid foundation in Java, C++, and web technologies. A collaborative team player focused on building clean, user-friendly applications.

WORK EXPERIENCE

Frontend Developer & Sales Support

Wish Group Resources, Sungai Buloh, Selangor **September 2025 – December 2025**

- Developed, redesigned, and updated company websites using **HTML, CSS, JavaScript, and Tailwind CSS** in Visual Studio Code.
- Designed responsive website and mobile landing pages focusing on layout clarity and user interface (UI).
- Implemented website design updates and usability improvements.
- Managed client follow-ups using **Google Sheets** and organized schedules and tasks using **Notion**.
- Co-planned and organized a company charity outing with colleagues, bringing children from a local orphanage to visit a chocolate factory.

PROJECTS

- **Pick A-Frame (Flutter Mobile App):** Developing a cross-platform mobile application in Flutter for gallery owners, artists, and frame shop owners to browse, match, and preview custom frames for artwork.
- **Vehicle Service & Appointment System (Java):** Built a multi-role desktop application using Java OOP and MVC architecture for customers, counter staff, technicians, and managers to manage vehicle service bookings, payments, and reports.
- **Parcel Service Management System (C++):** Developed a C++ parcel collection and delivery system using a custom Singly Linked List Priority Queue and CSV file synchronization to process urgent and normal parcels.
- **Personal Portfolio Website:** Designed and built a responsive personal portfolio website (delulu22.github.io/Portfolio) featuring Light/Dark mode, interactive project previews, and UI/UX showcases.
